**30 SEPTEMBER
3 OCTOBER
2026**
İSTANBUL EXPO CENTER

VISITOR INVITATION / VISITING HOURS 10:00 - 18:00

www.atechfuar.com

- ✓ Indoor and Outdoor Lighting
- ✓ Solar Energy Systems
- ✓ Smart Street Lighting
- ✓ LED Lighting Technologies and Products
- ✓ Electric Vehicle Charging Units
- ✓ Renewable Energy Systems
- ✓ Elevator and Hardware Equipment
- ✓ Security Systems and Camera Types
- ✓ Generators
- ✓ Face Recognition Systems & Security Barriers
- ✓ Landscaping Materials and Application Equipment
- ✓ Fire and Fire Protection Systems
- ✓ Smart Building Technologies
- ✓ Cabling and Equipment (Cable Laying, Cable Trays, and Cable Accessories)
- ✓ Extra-Low, Low, and Medium Voltage Cables
- ✓ Electrical Panels and Accessories (Low and Medium Voltage Distribution Panels)
- ✓ All Switchgear Components
- ✓ Electrical and Electronic Test and Measurement Devices
- ✓ Power and Distribution Transformers
- ✓ A/G Switchgear and Automation Devices
- ✓ Busbar Distribution Systems and Equipment
- ✓ Industrial Communication Equipment
- ✓ Uninterruptible Power Supplies
- ✓ Lightning Protection and Grounding
- ✓ Sound Systems

ABOUT A-TECH FAIR

A-Tech Fair, which started to be organized by Artı 2 Fair Organization on 23-26 November 2017, is a different organization that aims to bring together Türkiye's public institutions, manufacturers, and distributors. Companies in the field of Electricity, Lighting, Electronics, Security, Elevator, Generator, EV Charge and Solar Energy are the Housing Development Administration of the Republic of Türkiye (TOKİ) (Public Institution), EMLAK KONUT (Real Estate Investment Company), KİPTAŞ (Istanbul Metropolitan Municipality Construction Company). and GENERAL DIRECTORATE OF FOUNDATIONS. It brings together sectoral representatives from many state institutions and officials in their field.

The fair moved from Ankara to Istanbul in 2021 and gained International Fair status. Thus, with its location between the Far East, Africa and Europe, Istanbul has become the meeting point of international sectoral representatives.

In 2025, A-Tech has been selected one of the best trade fairs in Türkiye by the Turkish Trade Ministry. Therefore, %50 of expenses of the exhibitors have been covered by the ministry.

A-Tech Fair continues to grow year by year and in 2023, in addition to local and foreign participants, it rented nearly 30% of the fair area to Far Eastern participating companies.

The number of participants and visitors from around the world is expected to increase in 2026.

A-TECH FAIR AT A GLANCE

Discovering the developing technologies of the Electrical World.

A-Tech is an international fair for the electrical, electronics, lighting, and generator sectors. Under the slogan "The Electric Age Begins", it is the ideal industry meeting point for manufacturers, distributors, corporate service providers, fleet, and energy managers, charging point operators, e-mobility service providers and start-ups. The exhibition focuses on the latest technologies, solutions, and business models.

A-Tech will be held between 30 September - 03 October 2026 as one of the largest fairs for the electricity, lighting and energy industry of Türkiye and the region.

QUICK FACTS

9th International Smart Building Technologies
Electrical Systems Fair (A-Tech)

Date

30 September - 03 October 2026

Opening hours

10:00-18:00 | Wednesday

10:00-18:00 | Thursday

10:00-18:00 | Friday

10:00-18:00 | Saturday

Address

Istanbul Fair Center, 34149 Bakırköy/Istanbul
Hall 1-2 (Next to Atatürk Airport)

Exhibitors

Exhibitors more than 200 participants are
expected at A-Tech Istanbul.

Fair Area

Exhibition area Atech 2026 will be held in
Istanbul on an area of 22,000 m2.

Visitors

Visitors Atech 2026 total expected number of
visitors 20,000 + (expected)

TARGET AUDIENCE

Business Users and Public Authorities:

- Officials of public institutions, Housing Development Administration of the Republic of Türkiye (TOKİ), Emlak Konut Gayrimenkul Yatırım Ortaklığı A.Ş., General Directorate of Foundations
- Authorized engineers, chiefs, managers and department heads of government institutions in the relevant field
- Companies in the application area
- Retail and wholesale companies
- Infrastructure and superstructure contracting service companies
- Architects and civil engineers concerned in the field of energy efficiency
- Government representatives, political decision makers
- Lecturers and students
- Architectural design offices
- Construction industry practitioners

Lighting:

- Municipal services, architectural offices, government officials
- Local sellers, wholesalers and international buyers
- Planners, service providers

System Integrators:

- Planners
- Project developers
- Sectoral non-governmental organizations
- Distributors

Automotive Industry:

- Engineers, developers and IT experts
- Representatives from the EV-Charge supply chain
- Electric car Industry
- Electric car charging station practitioners

EXHIBITION

SEGMENTS

Electric; smart building technologies

- *Solar energy systems
- *Electric vehicle charging units
- *Smart building technologies
- *Building automation systems
- *Renewable energy systems
- *Elevator and hardware equipment
- *Security systems and camera types
- *Fire and fire protection systems
- *Cabling and equipment (cable laying, cable trays and cable accessories)
- *Weak, low, medium voltage cables
- *Electrical panels and accessories (low and medium voltage distribution panels)
- *All switchgear materials
- *Electrical and electronic testing and measurement devices
- *Power and distribution transformers
- *Low voltage switchgear and automation devices
- *Busbar distribution and equipment
- *Uninterruptible power supplies
- *Generator
- *Lightning protection and grounding
- *Sound systems and video systems
- *Facial recognition systems & security barriers
- *Earthquake sensors
- *Earthquake isolators

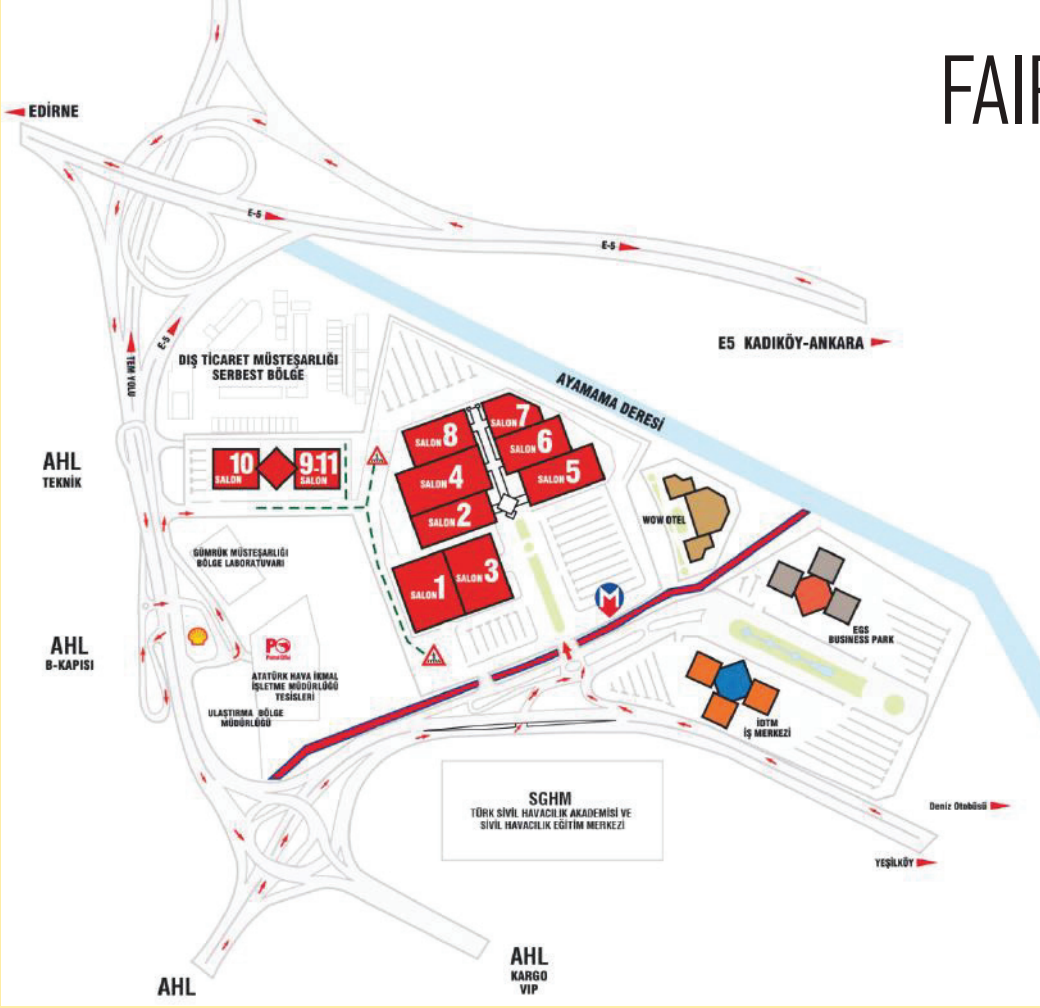

Electric Vehicles

- *Electric Charges
- *Electric vehicles
- *Electric passenger cars
- *Electric light vehicles
- *Commercial and private electric vehicles
- *Other electric vehicles (water, aircraft)
- *Reinforcement and conversion of electric vehicles
- *EV battery technology
- *Battery replacement systems
- *Testing and security
- *EV system and production
- *ICT, embedded systems and software
- *EV system technology and components
- *Electric vehicle equipment. Maintenance and renovation
- *EV production technologies

Lighting

- *Indoor and outdoor lightings
- *Smart street lightings
- *LED lighting technologies
